

## Register to the Club as a Player

Most of the cricket clubs in the Brisbane North region will have set up their registration forms so that you register to the club (not directly to a team).

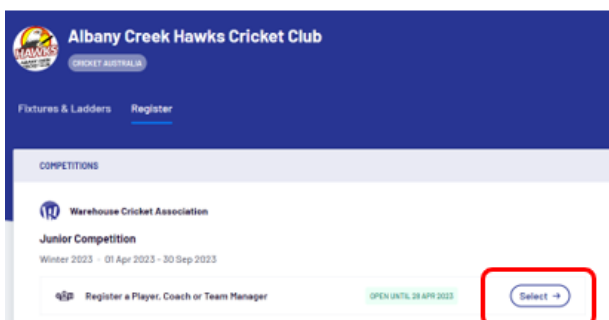

So while some team names may appear under the relevant competition, the registration process will not actually register you under a specific team. The relevant club's registrar will place you in a team based on your age (for juniors) and special playing requests (if the club has set up custom fields for requests).

When you have logged into your PlayHQ account and found the club you require:

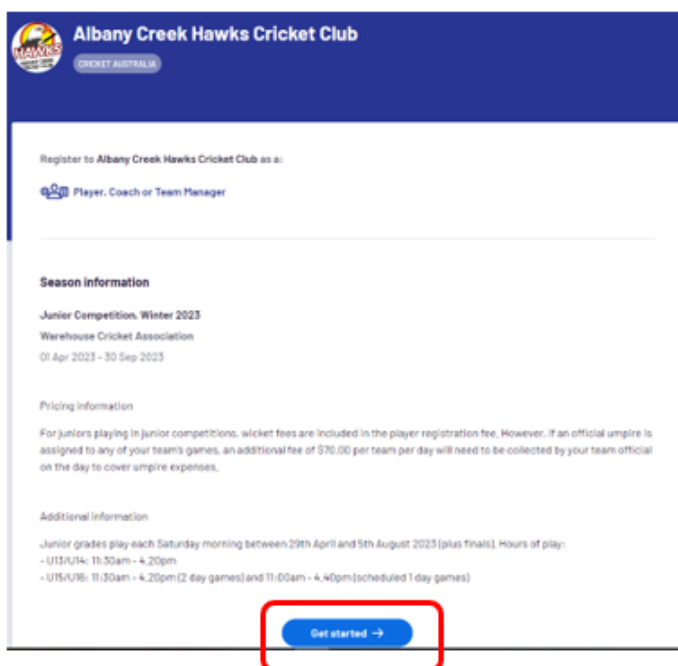

1. Click **Register** at the top of the page.

2. Click **Select** beside the competition you require, i.e. **Junior Competition** or **Senior Competition**.

3. The **Season Information** page will display. Click **Get started** on the bottom of the page.

4. Continue entering the details on each page until you confirm the registration in the final page.
